Oh, boy.

Haven't been to this site in a while.

After 6 attempts at Fort Knox, finally got registered.

Very hard to post here. Very hard to figure out where you need to go if you want to post.

Just my opinion, but very hard to navigate this site, not user friendly. May actually post here if I figure it out.

K.I.S.S. (applies in this case).

Maybe it is my PSU B.S. degree. May have to go back and get my PHD before I can figure out this site.

I liked the original format. The changes that occurred since, only made it harder to get on here/follow the threads, and post.

Sounds like the same IT geniuses from where I work now contributed to this site. Take a working, user friendly process, then keep applying more and more changes and computer steps to this easy process (to confuse the existing users and make it even harder for the newer users) , a process that was much easier done prior.

Oh, the price of progress.
