The length of each leader segment is determined by the length of the main line segment. For a 100' long main line, the length of each segment is 100' divided by the number of segments. For a 100' long main line, the length of each segment is 100' divided by 4 segments. For a 100' long main line, the length of each segment is 100' divided by 4 segments.

Step 1: Take the 100' main line and cut it into 4 segments of 25' each. Step 2: Take the 100' main line and cut it into 4 segments of 25' each. Step 3: Take the 100' main line and cut it into 4 segments of 25' each. Step 4: Take the 100' main line and cut it into 4 segments of 25' each.

Step 5: Take the 100' main line and cut it into 4 segments of 25' each. Step 6: Take the 100' main line and cut it into 4 segments of 25' each. Step 7: Take the 100' main line and cut it into 4 segments of 25' each. Step 8: Take the 100' main line and cut it into 4 segments of 25' each.

Step 9: Take the 100' main line and cut it into 4 segments of 25' each. Step 10: Take the 100' main line and cut it into 4 segments of 25' each. Step 11: Take the 100' main line and cut it into 4 segments of 25' each. Step 12: Take the 100' main line and cut it into 4 segments of 25' each.

Step 13: Take the 100' main line and cut it into 4 segments of 25' each. Step 14: Take the 100' main line and cut it into 4 segments of 25' each. Step 15: Take the 100' main line and cut it into 4 segments of 25' each. Step 16: Take the 100' main line and cut it into 4 segments of 25' each.
