I agree Ryan! they all catch fish when used properly, it's just a matter of what you like!
oh trust me, there are days when I'll use nothing but a fast graphite. I just like to mix it up. one day bamboo, next
day glass, next day graphite. they all work! of course, I usually pick the wrong one for any given day!! LOL
I think you'd be surprised with the newer glass rods, very light, smooth, and powerful when needed. I'll let you
try my mcfarland next time we fish.
