URL:

Sage 7'9" 3wt (go to rod since 85)

Ross 8'6" 3wt (had 2 yrs and never used yet)

Cabelas LST 9' 4wt (abused this rod for 3+ yrs now)

Redington RS4 9' 4wt (once on Clarks, new to family)

Sage TCX 9' 4wt (in transit from rod builder)

Sage Z Axis 9' 5wt (used in NY last fall)

St Croix Elite 9' 5wt (in transit from rod builder)

Sage GFII 8'6" 6wt (rod for smallies or heavy nymphs)

Sage RPL+ 9' 6wt (15 yrs of use on Beaverkill and D)

1 Hardy Marquis #3 (punished beyond recognition)

3 Ross Evolutions reels (new to family, love them)

1 Cabelas LSR reel (OK reel)

1 Cabelas Watershed reel (can you say Ross Rhythm?)

1 G Loomis Eastfork reel (smooth)

I like that Cabelas LST as much as any of them. I wish Cabelas made that FT+ model still. That was a very nice casting rod at a price point well under \$200.
