I took my daughter and niece bass fishing on Sat. We were using a spinning rod and throwing weighted streamers and buggers. We were catching bass when a koi came close to the bank. I told my niece, I will give you \$5 bucks if you can catch that one. Well the bet was on! She kept throwing near it but it would not strike. The girls were having fun picking out streamers. I then suggested the olive bugger with a krystal orange egg. Well a few casts later he sucked it in. I yelled set the hook. She did and almost broke the rod. I was so excited, probably more than she was. Surprisingly it did not fight as much as I had anticipated and we landed it! I estimate it went 6-7 lbs. Anyway she was smiling ear to ear and I was as happy as can be. I told her it was bigger than any fish her brother ever caught with me and I could tell she was pretty proud! That was the best \$5 dollars I ever lost in a bet.
