I had bought a pair of youth xlarge waders for my wife last year. Did not want to spend alot and and mens small was to large for her. The only womens waders were well over \$100. Well, Youth extra large was too small. Any way, I would like to find some one who could use these. They've never been used and they are neoprene stocking foot waders. If anyone knows anyone who could use these let me know. If I have to send them I just ask to be reinbursted to shipping cost.
