Well at least one positive response

Dear Mr. Schronce:

I'm contacting you in response to your e-mail regarding the suspension of further expanding the gas drilling on our state forests.

Representative Kessler has read your e-mail and is in full support of Representative Greg Vitali and Representative Dave Levdansky's legislation and meets with them on a regular basis in regards to this subject. He has also signed a letter that has gone to the governor, supporting the halt of any further leasing of state forests. Representative Kessler voted for HB 2235 in committee and plans on doing the same when the legislation comes to the floor.

We thank you for contacting us with your concern and hope that in the future you will contact us in regards to any other state issues.

Blair Haring
Legislative Assistant
Rep. David R. Kessler - 130th Legislative District
2 Scholl Drive, Oley, PA 19547
