wives, plug your ears

quick questions in reference to lady problems.... is it common practice to always take the blame from your fishing buddies wife and vise versa for being late due to fishing? I am always at fault for Greg being late, and he is always the problem for me showing up 3 hours late to an event.... "HE didn't follow the GPS, I couldn't find HIM on the stream, HE wouldn't leave unless HE caught a fish, HE fell in and we had to get some dry clothes....."
