ok guys tell me what you think heres what i came up with for a partial realistic (to me) green drake heres the recipe

hook tfs (the fly shop) 5263 sz 10 2 xl

tail pheasant tail fibers

rib canary yellow 3/0 thread

body olive dub with pheasant tail from the tail overlaying the top of the body

hackle 1 grizzly and one olive the olive being a lil bit longer fibres than the grizzly

and thats it here a pic below it needs trimmed a bit
