I want to thank the forum and introduce [Allen Fly Fishing](#) as a sponsor to the site. Many of you have shared a lot of positive feedback about Allen Fly Fishing products and became very interested in the reels, hooks and other fly gear they provide. Having a quality sponsor and good partners to the site is very important to me and I think our community.

Justin is the owner over at Allen Fly Fishing and I want to give him a opportunity to dialog with members in this thread about his products when questions come up.

We are working things out that some demo equipment will make its way up to the Paflyfish Jamboree in a couple of weeks. I am very excited to learn more about these products. Again thanks to all of you that found Justin and Allen Fly Fishing.
