Hey all just want to put my 2 cents in here:

I've been emailing with Justin over the last couple of months and ordered some products from him - I got:

Alpha 3/4 Reel

WF Yellow 4WT line

Fly Box (not the one with the center sleeve)

and some streamer hooks - 4's, I believe

Everything has been top. notch. The reel is fantastic and the line floats for days. I could have easily spent 400\$ on a setup of this quality, but it was under 100\$. Great stuff.

The fly box could easily go for 30\$ - I cant say enough good things about it. Hooks are also top quality.

I took some photos of the reel which you can see on Justins home page. I am going to be shooting more gear for him and I cant wait to try it out. I will let you guys know when the photos are up and how the gear is - one of the best places to spend money in the FF industry, in my opinion.
