Tracker, I'd like to see your alpha at the jam. I'm thinking of getting the 7/8 for steelhead this fall. I was planning on getting a second spool for my Lamson, but the alpha is cheaper than a Lamson spool and I think the quality of the drag is comparable to a high end reel like a Lamson. I've been using my Allen XL series on my 5 weight and I love it. Its going to be perfect for throwing drakes at the jam.
