The Jam in the NC Region is likely because Petticote Junction CG in Cedar Run treated us well last time there, has cabin space and tenting facilities. We had no problem with our gathering of 15-20 campers. The thing has grown. We need a CG who understands what we do, what they are in for, and how accomodating us will benefit them.

On the other point, I have nothing whatsoever to apologize to anyone about. I was not over the line by even a centimeter. But, as I intimate here, anyone else who wants to try to arrange what is necessary is more than welcome to step up to the plate. You included, Fred. Just tell Rudy I've agree not to attend if he has us back. Truth be told, you may find that is all he really hopes for. Just sayin'....
