Three hook rigs eh? must admit, i've moved away from multiple nymph rigs due to my own magical ability to tangle my line by looking at it funny.

As for hooking the bottom - that just makes it MORE exciting as you may get 10 takes with a dry fly and therefore 10 instances of excitement. When nymphing you get 10 real takes, but snag the bottom 100 times - so you end up with 110 instances of excitement when you THINK you have a take.
