nice, I also have a little DreamCatcher, 6'8" for a 3wt, pretty much ideal for little mtn streams. The Dietrich bro's sure do make a beautiful rod! Also picked up two 4wts by Dennis Stone from out of Portland this spring, both are 3pc, one @ 8' and the other is 7' 3"....so the quiver is pretty much complete, at least until I get the itch for maybe a 7'9"ish 5wt....guess I better start saving my pennies. :)
