As for the LRSA I think they did that to sell memberships money first resource second like everything else. From the Parryville dam to the 895 bridge on the Lehigh should be closed from June 15 to Sept 15 every year as a thermal refuge, because the amount of fish that stack up near on the pohopco is disgusting and everybody and their brother know's the fish are there and they just pound the crap outta them. It was so dumb for LRSA to stock more fish there at that time all it did was fuel the fire!
