bam,

We had 7 guys, 7 boats and 6 FREAKING CARS. 5 of them were at the launch spot though! LMAO. On my 3rd consecutive trip from Norboard to Balls Eddy, I was praying for a stroke. We should have jammed 6 guys in the Honda and driven to Norboard. It would have looked like a clown car unloading except they were wearing waders. 6 guys in waders in a little Honda would have smelled great too. LMAO.

Why don't you go next time? I'm shooting for 30 guys w/ 25 cars. All parked at the put in spot. We'll float to balls eddy and then I'll walk to the end of the gravel road and ask the guy with the school bus to run us back to Deposit.

I floated from Fishes Eddy to Cadosia this spring. Left my mtn bike at the take out. 30 mph winds up river 2 miles into the float. After rowing through 7 miles of hell, I had to get out and ride the back road to Fishes Eddy in 90 degree heat. Do you have any idea how hilly that road is? I was trying to save on shuttle fee but learned an exhausting lesson. I'll do it from East Branch to Fishes Eddy or Shehawken to Stockport but that's my limit.

PS- where are you finding a \$30 shuttle? Coz and DRC are now charging \$40-45. I've got the gals at the diner on speed dial. They move my car and walk the dog for me. Now that's a deal.
