I am most proud of my DF 76 "Phillipson Deluxe Swamp Fox" fiberglass flyrod I bought from a friend who purchased it at an auction. He had one already and sold it to me for the auction price of \$45. What a rare find, it was manufactured in 1971 and in nearly mint condition. Original aluminum tube and sock too. Phillipson made some of the finest flyrods available at that time and I consider myself fortunate to own one. NO! it is not for sale LOL. Tight lines to all!
