i figured the air is warm so i might try lititz run. its been awhile since i have visited this old friend. i started at the bottom of the catch and release area and fished the whole way to the top of the c&r area.i had 6 strikes, landed 4 and lost a big one! the 4 landed were all wild rainbows. one was about 15 inches. really pretty fish and very bright silver. the big one was a brown trout well over 20 inches. all on olive crystal falsh buggers. what a day! just wish the big one came to hand 😞
