Kilwell,

Gfen gave some good advice (if a bit pessimistic) 😊

For Bethany Beach in early Sept you can expect to find small bluefish, fluke, weaks, and spanish mackeral. While you can fish with a 6WT, an 8 is much better. Fish in the early morning or otherwise low light conditions when the wind is usually lighter. Walk the beach or jetties and watch for swirls, "nervous water" or diving birds and you ought to hook something. Good luck with your trip. By all means post a report if you care to.
