You don't have to make 50 to 100 foot cast to catch fish. i always get fluke within 20 foot of the wash if not in in it. 9' 9wt. with an intermediate and a sink tip of 350 grains will do it. Indian river can produce, blues, weaks, shark, along with fluke, croaker, etc. I spent 10 years there fishing the inlet and back behind the coast guard station. (where I got bit by a shark) There are some puppy drum back there on some yaers too. anywhere on the Del./ Md. coast should be good. Have to know the tides, wind, moon to hook up though.
