Lower 40 is out, FSC sez full price without the reel. (Anyone want an unused TFO mkII reel?)

The quest continues, at least for another week before I crack (except I'm pretty much against the financial wall).  
Of note, the guy at FSC told me Teeny split from TFO, which means we may see more of these end up for sale.

Probably too late for me, though. Gah, does this mean I have to use a borrowed rod? How gauche!
