HA,

If you jump out in water that's moving pretty good, the boat will spin around and blow your knee out. Right knee, May 2010 around Stockport on the main. I will give it a try though. I land most fish "up between the toons". With that in place, I'll have to go to the side which I think makes netting tougher. Maybe a net handle extension is in order.

Bungees to tow a person when they forget their oars? Are you kidding me? Nobody's dumb enough not to bring their oars.... are they? :)
