Dude, look in the incoming mail and say, "look, here's a box from Abel." I won't yell at you if you say its not there.

Well, I might, but no more than usual.

I'm pro-Vermont. I like that stoic old Yankee thing they got going on, I do not like the Johnny-Come-Latelies, or is that Johnnies-Come-Lately, who are seeking it out because they're filthy patchoulli wearing hippies and they think its this terriffically progressive state that wants their flowery hippie bull flooding it and trying to be one with nature.

Which, FWIW, could segue into a wonderful story I know about a couple of girls who moved there to "live off the grid" and do it naturally, and ended falling apart because they tried to live in a tent and raise honey from bees.

Also, I have the feeling that JayL (jayL) at some point has worn patchoulli stink in an attempt to hook up with hippy chicks. While the reason may be noble, sir, the wearing of that dirt-scent is never acceptable. NEVER. Just lie, and say you never had so I can look you in the eye next time we meet.
