Hey guys I've been taking a look at this site and reading the posts for a while now and really learning a lot. I haven't fly fished yet but am really looking forward to it. I am heading to Cabela's in Hamburg shortly and looking to get a good but relatively inexpensive fly fishing outfit (although I am aware the equipment is not cheap) I am looking for recommendations on what I should get while I am there, fly rod, reel, combo, fly's, leaders, tippet and anything else you think I could be missing. Thanks! Oh and I also need to learn how to cast so I'm prob gonna start out at a local stream.
