Most well known trout streams in central and south-central PA are limestoners. The same is true of the lehigh valley.

SEPA has a few, but I ain't talkin'. 😊

Keep an eye open for this book:

DO NOT spend that kind of money for it. That's just amazon scammers trying to make a buck off idiots. I got it for \$5 or so.

Try some used bookstores in PA.

Also check Addall.com. They have some available at lower prices than Amazon. There's a copy for \$10 and several in the \$20-something range.
