I like flyfishing period. My favorites are Terrestrials and Tricos. I will however fish whatever flyfishing method I think will work. I really like Nymph fishing too. IMO you catch more and bigger fish. I'll "Highstick" without an indicator or use one to fish farther out. I fish with graphite and fiberglass both. This spring I even fished with bamboo. That was pretty cool. I tie all my own flies. I think that really adds alot to the sport. Nothing beats catching trout on your own creations. I think dries are great but only effective at certain times. I also fish streamers and wets. I guess I'm also "A Jack of all Trades, Master of None". All I know is this is a GREAT sport no matter how you go about doing it and I love it!
