Yellow Breeches, 11/30/06

Author: : PaulG

Date: : 2006/12/1 8:46:26

URL:

Fished from 11:00 to 2:30 at the Allenberry section, WT was 52 and clear, no bugs or rising fish. Not a bad day for the end of Nov. temp in the 60's.

Landed 6 with a black bugger with flash, and had a bunch of hits.

Only seen one other fisherman!

Paul
