Fishidiot,

Glad you hooked up with some fish on the LL. I fish that stream more often than any other stream. Sounds like a pretty typical day. You missed the best of the trico fishing by a few weeks. Its been pretty sporadic, and not a ton of risers. Im surprised those Brook trout are still around. They stocked them back in june, and I catch one every once in a while. Hopefully the ones that made it this long will survive the rest of the year. Glad you had some fun.

Andy
