Finny.....you have you ever been around the Little Lehigh? If not if you'd like fish it I'd gladly show you around if you promise to never go below 6x.

Btw for those that were wondering we got bored at the fly shop one day and found out that you can thread 0x orvis super strong through a size 24 orvis trico!

Next year I'm going to tape myself catching a fish in the Heritage section with a size 24 trico and 0x

Why next year? What's wrong with this weekend.
