This rod is truly a one of a kind beauty, it is made by Thomas Hargrove on a Thomas & Thomas Ips blank (light presentation series) its an awesome rod for small streams and light presentations and the craftsmanship is unexplainable these pictures do no justice to the rod. The feather inlays you see in the picture are themed throughout the rod. Im selling it simply cause i need the money and its a rod that I dont fish much at all so id rather someone have it that will really enjoy it. asking 250 comes with sock and tube with screw on cap.
