Back to the original question: I like to bring dried apricots or mangoes - tasty and full of calories and not bulky. But remember, 2 dried apricot halves are the same as eating a whole apricots when you add liquid.

Too many dried (or not dried) fruit have a nice purgatory effect. Don't ask me how I know this.

PS - there's a spot on the San Juan that ought have a big tree amidst the scrub, now that it's been well fertilized.
