URL:

Fished Cedar Run evening of 9/12.

Weather Cloudy - Rain

Water Temp 57 deg

Water Level - Higher than Normal

Water Clarity - Clear

Fished Lower reaches of Cedar Run in the late afternoon. Saw no hatches (but maybe due to persistent rain).

Only one fish caught...wild brown (6") on #18 Green Weenie.

Slate Run Tackle Shop told me other anglers had better success, but none on the day I was on the stream. No other anglers were nearby which added to the enjoyment!Cedar Run 9/12/06
