I was at the Schuylkill also yesterday and I caught 13 with the smallest being about 9" with the biggest being about 14" . Ten of the fish I caught were on a cork popper I tied they were smashing it some were going air born when they hit it. I tell you one thing there was at least 10 hatches coming off and the water was covered with spent spinners all and all I had a great time . I went from not being able to get a hit on top ever at the schuylkill to having my popper mutilated by smallies but I wasn't complaining

I will just tie another one.....I
