I love my JDaddy Streamflex. I couldn't have designed a better rod for myself. I like it so much I'm probably going to get the 10' 3wt next. I haven't even been able to use any other rods, except for small streams, because I like the 10' so much. I even have a brand new never outta the tube Orvis Clearwater II 8.5' 4wt that I probably won't use anytime soon. I just wish I would have made the switch to longer rods alot sooner.
