I like Thingamabobbers. Hard to lose and easy to move on the line- should be around .50 to \$1.00 for one. They do kink the line a little but does usually effect nymphing too much.

If you find you don't like that try the toothpick kind.

Some examples-

<http://www.madriveroutfitters.com/pc-5119-187-thingamabobbers.aspx>

http://skipsoriginals.com/THE_BASIC_Strike_Indicator.aspx

Are you using this to float a fly or for strike indicator? If the former- I would suggest the thingamabobber.
