I don't know about you but I go flyfishing to catch trout! Yes I do get a little bored on the slow days. It's wonderful just being out there, but the main objective is to catch fish. Don't you agree? In my experience nymphing is the most effective way to do that. Just because you don't like it doesn't mean it is not effective! To be an effective flyfisher we must try to master all methods even the ones we are not good at. I don't care for streamer fishing but you can bet if I feel that's the method that will catch fish I will try it even though I don't really care for it. That's how we get better. I learned that from a flyfisher with nearly 50 years experience.
