Sorry about the slow response. I've been out of commission for a few days.

Pennkev - I agree it looks out of place, but it's what Orvis sent back with the rod, and since it took them a long time to work with me on this (4 months total), my patience was pretty shot at that point.

Dryflyguy, I measured the rod, and it sits at 7'6". I was also under the impression that the F&F came in 7'9" so that is why I was surprised when Orvis sent me this cap.

However, the rod is sold pending payment.
