The system is a definite leap forward. The PFBC will have a electronic listing of all license buyers. Verification of a valid license will be very simple. I would hope that WCOs will have laptops, and have the capability to verify a license without having a fisherman mail in their license for verification.

if this is true then hopefully they will have a way of verifying people who buy the trout stamp. when you lose your license, if you keep the afixed recipt you can get a new license at no cost. but you have to rebuy the trout stamp. now maybe you wont have to.
