I build my own knotted leaders. I only carry the last two spools in my vest because they are the sections you are most likely to lose. The rest I leave in my vehicle. I learned my lesson one day when I lost the last four sections of my leader. I didn't want to walk all the way back to the car so I just made two extra long sections out the spools I had. The leader would'nt turn over correctly but I fished with it anyway. Now I carry all my leader spools with me! You never know when you might have to rebuild an entire leader.

Same happened to me. I just got a leader wallet and built a half dozen leaders. Much less to carry!
