Cambyses, its the best 7 bucks you'll ever spend for a mag. Very little adds, full of content. It may take a little bit to get your copy but worth the wait. Even though I did the article on the quill wing dries I was still looking at it with a criticle eye and still have to say that there isn't another magazine like it. If Will does a second one its going to be tough with the bar raised as high as it is. Be curious to hear what you think of it when you get it.
