I've said it before, I'll say it again, this is only the beginning. our new governor is up the gas companies ass already. the next 20 years are gonna be ugly unless our ELECTED OFFICIALS grow some balls and stand up to these companies. I've repeatedly asked my reps their opinions on the subject, only get a rehearsed response. it's all about the money. if I had the money, I'd pay people NOT to drill, just to piss the gas companies off!
