I'll tell you what, I know the perfect location for a fly shop in the valley, that is already a bait shop and is for sale. I would love to take control over it, but I know what it's profits are already without the fly section and I know the hours he has to work to run the place. It's sad to say but with the way of the larger chains, the mom and pops shop will just disappear. God, if I had financial backers I would scoop it up in a second. H-A you know I am right too.
