I buy all my fishing needs from the small flyshops, being a small business owner at one time I know how tough it is. Being a good friend of Jonas at the FH, I get most of my stuff from him. I do go to the FFP shop to get things from them that Jonas doesn't have, I also stop at the yellow breeches shop too. I always had a problem driving buy a flyshop, when on the road, to look around and at least buying something.

Probably why I have so many flies, I'll never use!
