Redsun get credit for scoping out this dude at Harbor Freight today. It's storage box system that has 24 individual containers located inside. Its 9l x 6w x 2"thick. The individual containers inside are 2" x 2" x 1" thick. They are about the size of the Partridge hook boxes. These boxes would be great for hooks, beads, etc. They keep everything easily accessible but don't dump out all over the place if you kid opens the box and drop it!

\$5. 20% coupons available 365 days per year.
