Since you mention Valley...

8'6" TFO 4wt is my go to rod on Valley. When it's really low and clear, especially when fishing dries, I use my 7'6" Versitex 3wt with a clear creek taper natural toned line. Seems to do pretty well.

For a cheap reel, I love theabela's prestige plus... despite my gripes about the CSR. Honestly, an orvis battenkill would be your best bet.
