I wasn't sure if the egg rolling thing was just a wives tale or not , the guy that told me that does catch some nice stripers and lake trout , he fishes only at night and uses a thermometer and no electronics. I'd be happy to catch a bunch of those in that picture if i could catch 'em on a fly rod. The locals say the stripers are being caught as far upriver as Graceville near Breezewood. I guess what happens on that lake is that they periodically stock fingerling and small stripers to keep the numbers up , i think the record is like 60 lbs now.
