I've never had an Orvis rod, but used a friend's last yr. The tip wound up breaking. I loved the rod prior to that and loved Orvis response: they replaced the rod with a new one, more recent model. Great service. I did give my friend a hard time though. My cheap rod lasted 20 yr and his fancy rod lasted me 2 days:) I bought a St croix legend ultra this yr (4wt), and really like it.
