I never knew that, but here's where I got my info... it mentions that in true stripers, the lines are not broken.

[www.anglersfishinginfo.com/articles/fishident/bass.htm](http://www.anglersfishinginfo.com/articles/fishident/bass.htm)

Here's an ID from the IGFA. No mention of possible broken lines.

<http://www.igfa.org/species/91-bass-striped.aspx>

Still looking to see if I can find some reference to pure stripers having broken lines...
