Hey, can we sticky this maybe??

I'll be attending. I'll be down as soon as finals are over and will probably stay until Monday or so.

I'm going to start tying tomorrow for this. Various nymphs? Drakes? Sulphurs? BWOs? What sizes would be good also?

FFP, Feathered Hook, and Penns Creek Angler shop WEB sites all have hatch charts for the area. While they may be open on a reduced winter schedule any one of them will answer additional questions on a phone call.
